

Blackstone's TPRM Force Multiplier

How CyberGRX Transformed Blackstone's Third-Party Risk Management Program

The CyberGRX Effect

With the efficiencies gained, Blackstone was able to reallocate 50% of their resources to more strategic third-party risk management initiatives.

Before

Wasted time and resources on tedious, manual tasks

Couldn't scale with vendor growth

Lack of shared insights

After

Reallocated resources to strategic initiatives

Assessed 5x the number of vendors

Continuous insight and prioritized risk

"CyberGRX is a force multiplier for our third-party cyber risk management program. In just the first year, I anticipate we will be able to assess 5x more vendors than we assessed last year and reallocate the resources saved to true risk management and mitigation efforts."

-Adam Fletcher
Blackstone CISO
